

برگه آنالیز محصول

Product Name:

کلرید پتاسیم

Commodity: Potassium Chloride

Guaranteed Analysis:

Description: *KCl* is a high purity source of potassium chloride commonly called Potassium salt. The white crystals are chemically described as *KCl*.

Use: *KCl* is commonly used to inhibit the swelling of clays, reduce the reactivity of clays and retard the migration of clays present in the producing formations.

Composition:

		Specification		
Potassium Chloride (KCl)	%	94.62	Min.	
K ₂ O	%	59.94	Min.	
Potassium (K)	%	49.54	Min.	
Sodium (Na)	%	1.30	Max.	
Magnesium (Mg)	%	0.24	Max.	
Calcium (Ca)	%	0.05	Max.	
Humidity (for 25 C)	%	0.50	Max.	
Insoluble	%	Non	Max.
